The selected information is reported "in accordance with" the option of the GRI (Global Reporting Initiative) Universal Standard 2021 (Revised).

The details of subject matters and their boundaries within the scope are described in Appendix A and Appendix B in this independent assurance opinion statement.

Opinion Statement

We have conducted a limited assurance engagement on the sustainability information described in the "Scope" above (GRI Report for FY 2023-2024 covering disclosures on Economic Performance, Market Presence, Indirect Economic Impacts, Procurement Practices, Material, Energy, Water and Effluents, Emissions, Waste, Employment, Occupational Health and Safety, Training and Education, Freedom of Association and Collective Bargaining, Local Communities, Customer Health and Safety).

Based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the accompanying Sustainability Information is not prepared, in all material respects, in accordance to GRI (Global Reporting Initiative) Universal Standard 2021 (Revised).

Methodology

Our assurance engagements were carried out in accordance with ISAE3000 (Revised) assurance standard and ISO 14064-3:2019 for GHG statement following the principles of Integrity, Objectivity, Professional competence and due care, Confidentiality, and Professional behaviour. Our work was designed to gather evidence on which to base our conclusion. We undertook the following activities:

- A top-level review of issues raised by external parties that could be relevant to Electrosteel Castings Limited (ECL) policies to provide a check on the appropriateness of statements made in the report.
- Discussion with managers and staff on the Electrosteel Castings Limited (ECL) approach to stakeholder engagement. However, we had no direct contact with external stakeholders.
- Interviews with staff involved in sustainability management, GRI report preparation, and provision of report information were carried out.
- Document review of relevant systems, policies, and procedures where available.
- Review of key organizational developments.
- Review of supporting evidence for claims made in the reports.
- Review of data of Electrosteel Castings Limited (ECL) to confirm the data collection processes, record management practices, and check GRI disclosures physically and through virtual mode.
- A sample-based assessment of the reliability and quality of information as provided in the GRI report towards ECL's performance.

Responsibility

Electrosteel Castings Limited (ECL) is responsible for the preparation and fair presentation of the sustainability information and report in accordance with the agreed criteria. BSI is responsible for providing an independent assurance opinion statement to stakeholders giving our professional opinion based on the scope and methodology described.

Independence, Quality Control, and Competence

BSI is independent of Electrosteel Castings Limited (ECL) and has no financial interest in the operation of Electrosteel Castings Limited (ECL) other than for the assurance of the sustainability statements contained in the Global Reporting Initiative (GRI) Sustainability Report.

This independent assurance opinion statement has been prepared for the stakeholders of Electrosteel Castings Limited (ECL) only for the purposes of verifying its statements relating to its economic, environmental, and people, more particularly described in the Scope above and detailed in Annexure A.

This independent assurance opinion statement is prepared on the basis of a review by BSI of information presented to it by Electrosteel Castings Limited (ECL). In making this independent assurance opinion statement, BSI has assumed that all information provided to it by Electrosteel Castings Limited (ECL) is true, accurate, and complete. BSI accepts no liability to any third party who places reliance on this statement.

BSI applies its own management standards and compliance policies for quality control, in accordance with ISO/IEC 17021-1:2015, and accordingly maintains a comprehensive system of quality control, including documented policies and procedures regarding compliance with ethical requirements, professional standards, and applicable legal and regulatory requirements.

BSI is a leading global standards and assessment body founded in 1901. The BSI assurance team has extensive experience in conducting verification over environmental, social, and governance (ESG), GRI Universal Standard 2021, BRSR, GARP, ISAE 3000, ISO10002, ISO 14001, ISO 45001, ISO 14064, ISO 14067, ISO 14068, ISO 50001, and ISO 9001, etc. The assurance is carried out in line with the BSI Fair Trading Code of Practice.
